MERRITTSVILLE-2 P. M. Hardly had I ponned the above words, when a messenger came into the room where Counsel and myself wore sitting. He was much excited, and when he told us his news, we became scarcely less so. . Two gentlemen had just arrived poste haste from California direct. They had travelled the last 44 hours without sleep, in their anxiety to reach the spot where McHenry was being tried. Their names are Thomas Walters formerly of Acton.

It seems that McHenry's letter to California was addressed to a Mr. Anderson, Scribe of the Sons of Temperance Lodge in Chipp's liggings. Mr. Anderson had left the place, and the letter consequently lay there unopened .or a couple of months. It was banded to the actual scribe, who laid the contents before. the members of the Division. Mclleury was known at Chipp's diggings as a sober, quiet respectable man. Chipp's diggings were up in, an instant. No time was to be lost. The Sons of Temperance there, of whom McHen-

ry had been one, scoured the County instantly. The proper men were found, and affidayits were made which will at once satisfy the mind of any unprejudiced person. 'The departure of the gentlemen I have named was hastened for the purpose of their being bearers of the first package of documents, but other, packages are on the way, addressed some to: the Governor General, some to the Sherifl of Haldinand, and some to the prisoner himself. Tho meeting between the two gentlemen alluded to and the prisoner, took place a short time after their arrival, one of them recognised him, and was recognised (but not by name.) Mellenry then proceeded to relate eircumstances which took p'a eat the diggings in 1851, such as the falling of trees across cabins, &c., &c., which both the geutlemen recollected perfectly. The Judge was informed of the arrival, and that Mellenry would standhis trial immediately. But he would not allow this to be, since the trial had been postponed. There can be little doubt that the prisoner will be admitted to bail in the interior. It may be that the government will be applied to-to

#### General Summary.

A meeting of Common School Teachers, and other friends of Education, takes place at Newmarkel, on Friday and Salviday next, the 23rd and 24th inst., in the Unior S. S. Room.

The Directors and Members of the North York Branch Agricultural Society hold General Meeting on Tuesday next, at 3 o'clock p. m. For particulars, see advertisement.

We understand that Major Stephenson awarded two prizes of one pound each, to the bost Ram Lamb and Ever Lamb, got by his oslebrated Imported Ram, at our late Fall

By reference to our advertising columas, it will be seen that our old friend Mr. J. Forsyth lies again resumed his well-known premises the Railroad Hotel. The travelling public will no doubt be pleased to meet their old host when calling at Newmarket.

The Georgina and North Gwillimbury Fall Show took place yesterday. In consequence of unforseen circumstances we were untable to attend : we hope, however, our friend Mr. R. H. E. will furnish the readers of the New Era with a copy of the prize list, &c., next week.

We are much indebted to Mr. Major Stephenson, and also Mr. Dumond for the samples of Roots left at this office on the day of our late fall show. Also, to Mr. Samuel Lundy and Mr, Ca'vin Weddel for Vegetables. We shall remember the kindness of the egentlemen when an opportunity offers.

From the office of the "Bureau of Agriculture and Statistics" we have received a beautifully bound copy of Prof. Hind's Essay, to which was awarded the first prize,-" on the Insects and Diseases injurious to the Wheat Crops." It is a capital work and should be largely circulated among the farming commuuity. We shall take occasion to select a few extracts for our readers at an early day.

COROMER'S INQUEST .- An Inquest was held by Mr. Coroner Willson, on Monday last, the 12th inst., at Mr. Hiram More's Inn, North Gwillimbury, on view of the body of a man who died there the morning previously. The deceased arrived at Mr. More's Inn on Saturday Trent, evening hist, and took lodgings for the night. He appeared very ill, declined talking with any one, and at times during the night made a rattling noise in his throat; he also appeared to suffer under an aborration of mind. He was about 36 years of age. The deceased was a total stranger in that section of the country, and gave his name as Colder. He said he was on his way to Beaverton. The verdict of the Jury Was- "That deceased, whose name is suppos" ed to be Colder, departed this life by the visitation of God, in a natural way, and not by any violent means whatsoever, to the knowledge of the Jurors."

#### North York Branch Ag. Society.

The above Society held their Annual Fall Exhibition at Newmarket, on Tuesday last. the 13th inst., and was the largest and best ever held by the Association. Nearly 500 | entries were made with the Secretary,-and after the books were closed others desired to 2nd do., T. L. Heacock. enter the list of competitors.

The borses and cattle this year, as a whole, exhibited a marked improvement over other years, -while the number of entries in each class were nearly doubled. It would not be out of place to remark here, that the number of entries, as a whole, other years were swelled by competitors in roots and vegtables; but this year, the augmentation was in Stockfurbishing the most reliable evidence of material progress in stock-breeding.

In Sheep the Society never made a better display. Every animal was of a superior description, and those gentlemen to whom prizes were awarded well deserved the mark of distinction; although, it was with difficulty, in | do., Thos. Garbutt. many cases, the judges were able to give the preference-and thereby make a difference.

.. In Implements there was a fine display, and all well worthy of inspection. From the natore of our duties as Secretary to the Society we were unable to icake a minute inspection; but we beard competent men to give an opinion observe, the articles exhibited were indeed creditable to their makers.

The Seeds and Vegtables were excellentmuch better than was anticipated, considering the season. We were glad to learn from farmers that the rot was not so extensive as bas been represented, - a good many, however suffered largely, particularly those who planted on low wet land. Mangold Wurtzel were on

exhibition weighing as high as 18 lbs., as well ford; 2nd do., Wm. Wallis. as some of the finest Swede Turnips we ever bate seen.

, In the Ladics Department there was a fine display, and had a more respectable and conrenient place for exhibiting the articles been relected, it would have been considerable to the credit of the Society and added to the interest of the exhibition. In this department it would not do to make individual distinction; but one remark we might hazard, and that is -no exhibition in the County of York ever equalled this show in the fine orts.

. The judges haring concluded their labors, the members of the Society and their friends, to the number of nearly 100, adjourged to the provided. After the removal of the cloth, the exhibited by our township, Mr. Burrough, the routh a very good view is given of the inson and Joseph Marri.

#### Board of Trade.

Pursuant to notice given, a public meeting was held at the Railroad Hotel, Newmarket. Monday evening last, the 12th inst., to take into consideration the propriety of forming a Board of Trade in this place. Mr. D. Sutherland was called to the chair and Mr. Nixon

The Chairman then read the notice calling the meeting, and explained the objects; and was followed by several gentlemen present, who spoke of the advantages of a Board of Trade to the locality, and pointed out its legitimate field of operation. Our space prevents us from giving the speeches. The following are the resolutions adopted :--

Moved by Mr. Nixon, seconded by Mr. "Whereas, for the better protection and

regulation of the commercial interests of this community, it is expedient to form a Board of Trade, be it therefore --Resolved, that such a Board of Trade be

at once formed." Moved by Dr. Bentley, seconded by Mr. J. G. Parker, and

## New York State Fair.

Notwithstanding the financial difficulties our neighbors across the lines, the N. Y. State Pair, for 1857, was a splendid exhibition. Bullalo, during Wednesday, Thursday and Friday, of last week, was overflawing with visitors to the Pair. The grounds fenced covered an area of about 25 scres, and were situated on the main road leading from Buffalo to Black Rock, bordering on the Niagara River-commanding a fine view of the Canadian shore opposite. On the grounds, side by side, floated the American and British Plage; and this has called forth the following paragraph in the Cou-Iron Plough - 1st prize, Jas. Wetberell. rier :-" This is as it should be. A river only divides, or rather unites, the United States and Canada. The citizous of the Province have a common interest with our own in agriculture, commerce, and in all Horse Shors-1st prize, J. S. Wilkin; that dignifies social life. At the Brantford Pair the two Plags were placed in a similar position, and it is a matter of congratulation that such acts of courlesy are of frequent occurrence."

We clip the following from the Special correspondence of the Glibe, -as it fully expresses our own opinion :-

THE GROUNDS. The ground selected for the Exhibition rectangular piece of land of 25 scres in extent, situated between sixth street, on the one side, and Lake Erie, exactly opposite to its entrance into the Ningara River, on the other. The ground, with the exception of a small portion at the north western corner, Embrodiery-1st prize, M. Vernon; 2nd is very, oven, and the position admirably adapted for the purpose. The view to the west is very delightful; immediately in front of the ground tile lake expands its waters which are almost Uninterrupted, as far as the dye can reach; on the right is Port Erio and our own Province, and far over to the Railros difotel, where a sumptuous dinner was confectionery, yet the judges thought the cake left lie the blue hills of Chataque, while on

#### Stouffville Fall Fair.

The semi-numual Exhibition of the Stouffville Branch Agricultural Society, took place in Friday the 9th instant. There was an excellent attendance, the weather being mag nificent and the atmost enjoyment was partleipsted in. The fair was attended with all the success that its friends could haved exiced. All persons appeared highly delighted with the exhibition-capecially with the Ladies' department. The funcy needle work, exhibited by Miss Wheeler, was very instefully wrought; and, besides those on the prize list, the Judges respectfully reported Mrs. Thomas McCullock's booutiful and fashiouable Bonnets, worthy of being creditably made mention of by them.

It affords me much pleasure to record the success, and am rejoiced in our prosperity, and lau table offorts, for the improvement of this noble part of Western Canada, having a common interest, and working togethor in the discharge of great responsibilities. The array of talent that he saw on each side of him, confirmed him in the impression that the cause would be ably advocated, and he was happy to commerce his duties by introducing to the company, the Rev. Mr. MacRitchie. The Rev. Gentleman spoke in his usual pleasing and instructive style, and praised particularly the unvarying disinteresto looss that characterized the tootives and netions of the Sons of Temperance, in company son with all other applications for signa tures, not even excepting those for benev olent purposes. The only interested views were in a moral senso, and the objects were two fold. The first was to alter the drinking usages by moral sussion, and they no doubt by this means exercised a tremendous influence, the main drawback however existing in the fact, that as fast as the Sons were making tomperanco men, tavern keepars were no less, in-

dustriously engaged in manufacturing druck ards. The second object was to totally eradicate alcoholio drinks by legal spasion. That is we must first persuade and enlighten in order to procure a majority of voters, and then the voice of the people at the poles would at once prohibit the nextons article. The present license system and prohibition were in fact synonymous, but the Conse only applied for the advantage of a few, white prohibition worked Mesers: Samuel Hisey, Andrew Lindsay, for the alvantage of the many, and rigorously James Lloyd, John Lehman and Jumes put all upon a level. After a few temarks or the fallacy of calling the money received from licenses a profit to the township, and the, bad initial effect of an absence of temperance tociety in the backwoods, the Rev. Gentleman took his seat amidst continued rounds of ap-

On the other hand, temperance was a safe Canadian Bulls, I year old, 1st prize, and sure investment, but he differed with the last speaker who called the cause a disinterested one, for was not the whole community not directly interested in the suppression of crime and disease ? Some called the cause too small and contemptible for intelligent men to enter into, and stigmatized those who embraced it

with weakness. . Intemperatice has done more evil, than any weakness that man was prone to, and if the endeavor to suppress it was a weakness he (Mr. M.) was proud of it. The Three Ewe Lambs, 1st prize, Robert gentleman then duly discussed the question of our responsibility to the succeeding generation (?) and concluded with an eloquent panegyric on the miracles performed by the ladies of Brownsville and vicinity.

Mr. Smith next responded to the call. He spoke of the present anniversary, and took a retrospective view of the great things performed by their cider since the first installation, and the fully acd wickedness of moderate drinking, of the pleasure of tasting the clear gushing rill, unpolloted by man's inventions, amidst scenes of overwhelming grandeur and magnificence-ut its onward course to the unlimitable ocean-first emerging beneath the Carrots, 1st prize, Wm. With many more appropriate remarks clothed in extremely flowery languagen the speaker

gave place to Mr. Noble. Mr. Noble allegorically described the whole scene as a camp on a battlefield, and ably delineated the charge and defence, the armor, the medals, banners and weapons of attack with the arch enemy alcohol to encounter. They (the Sons) had been recruiting strongly but had the enemy and the total destruction of the monster was now our only means of safety.

Dr. Provost the next speaker related many comical anecdotes, and wound up the speakers, list. A vote of thanks was then passed to all parties concerned, and the meeting dispersed, the band tplaying the National Authem.
